Back-End: Express, SQL, Postgres, MongoDB, C#, SASS, jQuery, Java, C#, C++, Python

Tools: Git, AWS, Firebase, Netlify, VS code, Visual Studios, Eclipse, Figma

Techniques: Agile Development, Test-Driven Development, Microservices, OOP, REST, Pair Programming, CRUD

SOFTWARE DEVELOPMENT PROJECTS [\[All Projects\]](#)

Co.Lab - Core Connect (*AGILE Collaboration Project*):

[\[Project\]](#)

- Developed a **React.js/Vite.js/Node.js** application to connect mentors with mentees based on core values.
- Designed the application using **CSS, Tailwind** and **Figma** in collaboration with a Product Designer.
- Using **Agile and Test-Driven Development** to continue developing the application.
- Integrated **OpenAI** to create a unique user profile picture based on the users core values.
- Using **Git** and **Netlify** to operate the project.

Virtual Dream Board (*Front End Project: Capstone Project*):

[\[Project\]](#)

- Developed a **Typescript** application to help people have a portable dream board.
- Designed with **CSS** and **Redux** plugins to create a smooth user interface.
- Created a **Firebase** backend to handle all **CRUD** operations.

EXPERIENCE

Billing Assistant- Shoreline (*Remote*)

10/2023-Current

- Handling/editing/creating matters for each client.
- Using **AWS** for all work processes and handling Client inquiries.
- Using the billing platform **Coyote** for **AR** and **AP**
- Ebilling experience with **Serengeti** and **Collaborati**.
- Creating and updating **Excel** spreadsheets for EoD, EoM, and EoY

Software Developer Trainee- Coding Temple (*Remote*)

04/2023- 11/2023

- A Full stack boot camp that added to my development skills taught on **VS Code** and using **Github**.
- Used **OOP** and **Python** to create games, applications and designs for future projects.
- Learned backend processes such as **Express, SQL, MongoDB, Postgres** and **jQuery** to create mockup databases for various projects.
- Using multiple data libraries such as **Regex, Vite, Redux**.
- Learned **CRUD** and **REST** concepts.

Planet Bravo - Technology instructor (*Los Angeles, CA*)

02/2022 - 10/2022

- Taught children ages 5-14 various STEM subjects such as, coding, photoshop, video editing, modding, robotics, and more.
- I instructed the students in the creation of video games, **web design, Python**, and the utilization of various **Google** apps and technologies, equipping them with valuable digital skills and fostering their understanding of these tech domains.
- Projects include: 2D Shooter. **Scratch** (games and animation), About Me websites. Minecraft Modding, Video editing projects using **Adobe**. ESports team coordination.

EDUCATION

Coding Temple - Software Engineering Certificate

09/2023

Santa Monica College - AAT - Computer Science

06/2021

PAST EXPERIENCE

Front of House Manager - Chick fil a

11/2020-02/2022

Host Coach - Ruth's Chris

01/2020-10/2020

Assistant Sales Manager - Vector Marketing

06/2019-06/2021
